Marketing Information

:: Açaí Juice Powder

Due to its exceptional nutritional qualities, Açaí is rapidly gaining a presence in the global market. In addition to the traditional puree format, Açaí is now available as a dry extract as part of the NU Fruits range. NU Açaí Juice Powder is an ideal ingredient for use in the beverage and food industry, combining the nutritional benefits found naturally in Açaí with the practicality of use as a concentrated powdered source of this exceptional berry.
